How to Use This Manual

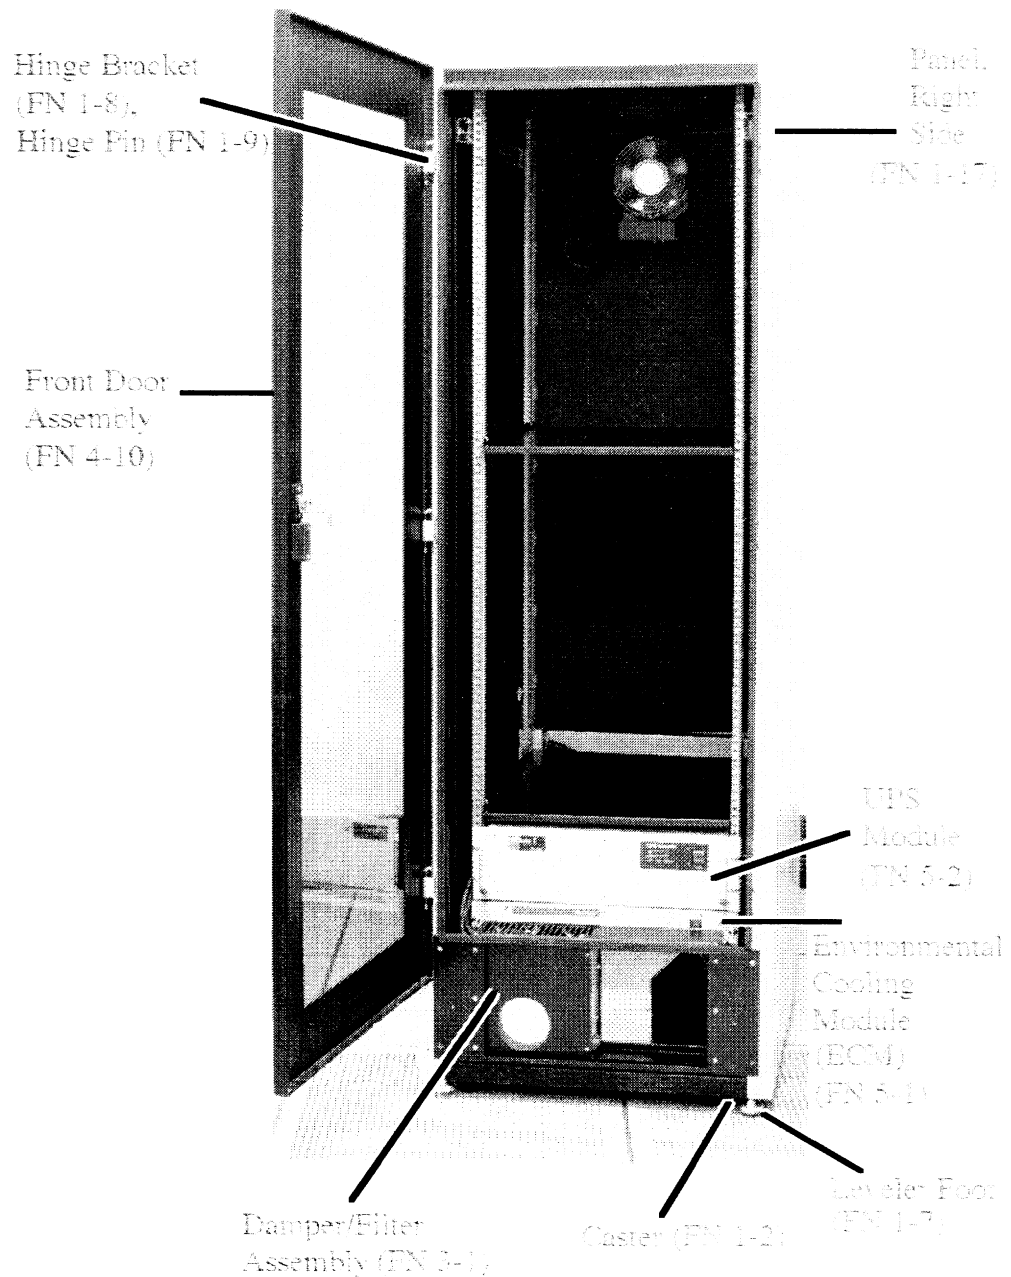

Little Glass House

The Little Glass House Parts Manual is made up of six major parts sections as listed in the Table of Contents. Each section applies to a group of related parts or to a major assembly.

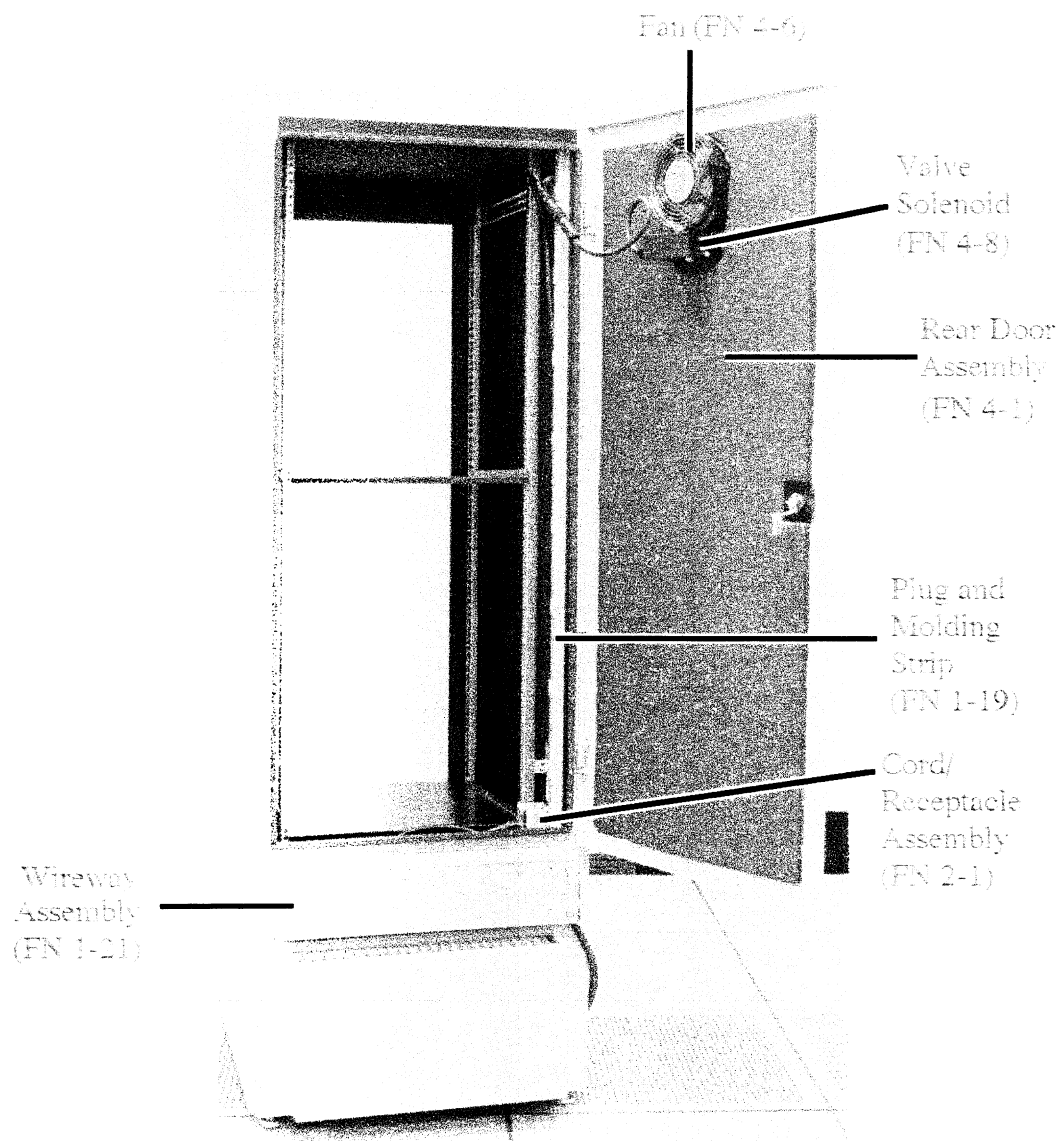

a **Find Number** is a sequentially-assigned two-part number. The FN matches a picture of a part to the part number and description in each table. The first part of the FN is the table number. The second part is the assembly or component number found sequentially in the table.
